O R D E R

We reopen this case to consider the request of Peaks Mill Water District ("Peaks Mill") for an additional 30 days to comply with our final Order in this case. Completion of the facilities necessary to meet the Order's requirements was to have occurred on or before December 31, 2003. As grounds for its motion for extension, Peaks Mill states it has recently been advised that the backflow device needed to complete the connection will not be available until some time during the first two weeks of January 2004. In addition, Peaks Mill cites concerns with potential weather problems in the upcoming weeks. The Commission finds that the grounds cited by Peaks Mill are adequate to support its motion.

The Commission being sufficiently advised, IT IS THEREFORE ORDERED that the motion of Peaks Mill is granted, and it shall have an extension until January 30, 2004, to comply with the requirements of our final Order in this case.

Done at Frankfort, Kentucky, this 31st day of December, 2003.
